Executive summary

In order to reach in the most effective way the public and to maximize the impact of SAFER-LC, SAFER-LC project's website has been implemented at www.safer-lc.eu.

In addition, a SAFER-LC private workspace has been created to facilitate exchanges within the consortium at <http://extranet.uic.org/>.

1. INTRODUCTION

The purpose of the Deliverable 6.1 is the provision of the SAFER-LC website and CYRAIL SAFER-LC.

2. SAFER-LC WEBSITE

UIC launched the dedicated website at www.safer-lc.eu on beginning of June 2017. The website gives the visitor a comprehensive overview of the project.

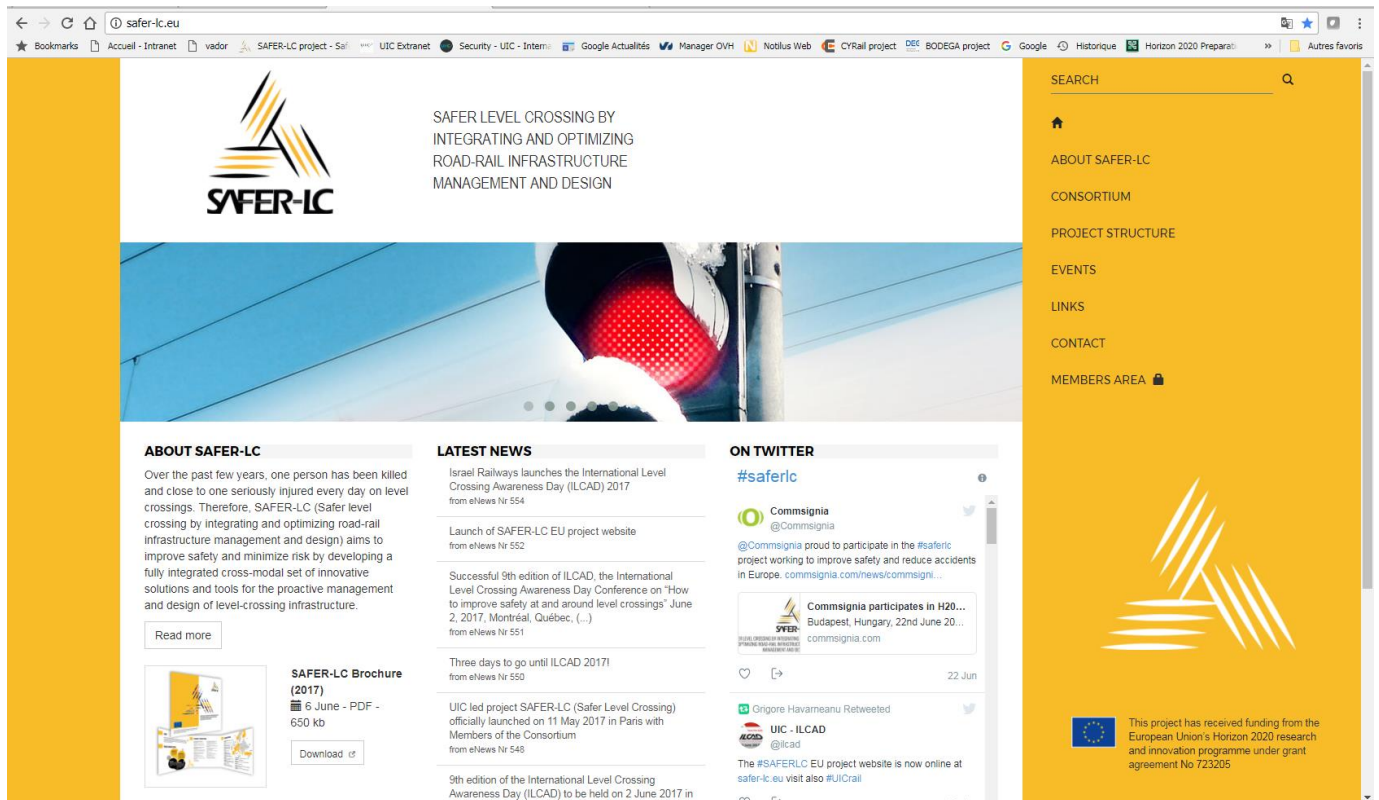

Figure 1: SAFER-LC Website – Home page

The SAFER-LC website will be regularly updated and maintained in order to reflect the project developments. All the news will be published on the web page as well as the public outcomes.

The website will remain online after the end of the project.

3. SAFER-LC PRIVATE AREA

The main objective of the SAFER-LC private area, so-called “SAFER-LC workspace” or “extranet”, is to facilitate communication among the consortium members but also with the members of the advisory board and the end-users.

The “SAFER-LC workspace” is created in the UIC collaborative Tool “OVIDENTIA” which is an open source content management and a collaborative platform based on a large community of users.

This SAFER-LC Workspace enables users:

- to share and stock documents,
- to organise meetings
- to manage directories and contacts
- to discuss special issues online

The key functions of this exchange platform are the following:

- manage users’ rights and profiles
- manage meeting schedules and associated documents
- enable users with the relevant rights to update information, upload and download files in real time
- manage the directories which constitute a contacts database inside and outside the project
- provide e-mail notification of news and events
- search on the various fields

The SAFER-LC workspace is accessible at <http://extranet.uic.org>
